

Chromalive Light Therapy Workshop

The best Part of the Rainbow Isn't the Pot of Gold... It's the Rainbow Itself!

Did you know that colour is pure energy and that each colour of the rainbow has a different frequency and power which reach you through light rays? Light stimulates your body's endocrine system, which is connected to your body and its seven main energy centres (chakras). By balancing your personal colour needs you can reach an optimal level of well-being.
